

ESTIMATE THE CROP YIELD USING DATA ANALYTICS

TEAM ID : PNT2022TMIB00213

PROBLEM STATEMENT:

The goal of this problem statement is to use the IBM Cognos analytic platform to build a dashboard and analyse crop production in India.

DESCRIPTION:

India is one of the top countries for agricultural output, and crop production is one of the most significant sources of income in the country. As part of this project, we will analyse some significant visualisations, build a dashboard, and then use this information to gain the majority of our understanding of crop output in India.

OBJECTIVES OF THE PROJECT:

By the completion of this assignment, you will be able to: Know core ideas and work with IBM Cognos Analytics Acquire a thorough understanding of plotting various graphs Able to build insightful dashboards
